TECHNICAL SKILLS

• Frontend Development:

HTML5, CSS3, JavaScript,
Bootstrap, Tailwind CSS,
React.js , API integration

• Backend Development:

Node.js, Express.js

• Databases: MongoDB, MySQL

• Programming Languages:

Python, C++

• Tools & Platforms: GitHub, VS

Code, Figma, Canva, MySQL
Workbench, GitLab ,AWS

EDUCATION

AISSMS College Of Engineering Pune
TE, Computer Engineering
CGPA: 8.86(sem5)

APK College Of Art,Commerce and
Science Pune

HSC Board Science

Percentage: 76.83%

Sane Guruji Secondary School Pune
SSC Board

Percentage:90.20%

CERTIFICATIONS

- City of Moreton Bay
- Generative AI Study Jam 2024
- Oracle OCI Generative AI Professional Certification
- NPTEL Python for data science

OBJECTIVE

Aspiring Full Stack Developer with hands-on experience in React.js, Node.js, and MongoDB. Passionate about building scalable web applications and eager to contribute to real-world software development projects while enhancing technical and problem-solving skills.

EXPERIENCE

Software Engineer Intern

Sowermate Technology Pvt. Ltd. | Dec 2025 – Mar 2026

- Developed a gamified learning platform using React.js, Redux, and REST APIs.
- Implemented JWT authentication, state management, and responsive UI optimization.
- Worked on testing, debugging, performance optimization, and Agile development workflows.
- Used Recharts and prompt engineering for analytics visualization and AI-assisted features.

Full Stack Developer Intern

AISSMS COE Reasonance Racing GoKart Club | Jan 2026 - Mar 2026

- Developed responsive web features using React.js and React Hooks.
- Created smooth UI animations using Framer Motion.
- Learned domain purchasing and website hosting processes.
- Worked on website deployment and frontend development tasks.

PROJECTS

- **Village Development Website | HTML, CSS, Firebase**
 - Developed a responsive platform providing rural users digital access to agricultural schemes and village updates.
- **Club Website (GoKart & REEV) | React.js, Framer Motion, CSS**
 - Built a modern, multi-page website featuring fluid animations and seamless navigation using React Router.
 - Enhanced user engagement by implementing interactive UI components with Framer Motion.
- **Crop Disease Detection System | Node.js, MongoDB, Express, Bootstrap**
 - Engineered a web-based diagnostic tool utilizing a ML API to identify crop diseases from leaf images.
 - Implemented secure user authentication and a real-time reporting dashboard using MongoDB.

EXTRACURRICULAR ACTIVITIES

- Editor-in-Chief, AISSMS Magazine
- Open Source Contributor (HacktoberFest 2025, GSSoC 2024)
- Campus Ambassador, IIT Bombay Techfest 2025
- Internshala Student Partner (ISP) 2025
- Smart India Hackathon (College Level)
- NSS Volunteer
- 3rd Place – Elocution Competition (COEP Tech NSS Unit)
- Participated in State-Level Poster, SciTech Villagethon & Code Clash DSA Hackathon, Adobe DSA Hackathon
